PAN-AMERICAN UNION FOR PEACE IN EUROPE

Governing Board Passes Resolution, Expressing Hope Warring Nations Will End War.

A resolution expressing the hope of all the governments represented in the Pan-American Union that peace may soon be restored among the nations at war in Europe was unanimously adopted at a special meeting of the governing board of the union yesterday afternoon at the Pan-American Building. The meeting was called at the request of the Chilean Ambassador, Senor Don Eduardo Suarez, who announced that he had been instructed by his government to propose the peace resolutions. The proposition met with steady approval. Secretary of State Bryan, chairman of the board, was authorized to convey the message to all the governments represented in the union. All the members of the Latin American diplomatic corps were present. The Chilean Ambassador also announced that he had been instructed to suggest the advisability of postponing the fifth International Pan-American Conference, scheduled to meet November 23 at Santiago, the capital of Chile, on account of the war. A formal motion to postpone the event until some time as the Chilean government might later recommend was passed unanimously.

TO CONSIDER HENRY BILL

The House Committee on Banking and Currency will meet today for the consideration of the Henry bill, providing for the issuance of \$500,000,000 of currency to be placed in Southern banking institutions to be loaned to cotton producers against the product of their fields in warehouses. The committee is unfriendly to the bill, and an adverse majority is certain to be given.

Only Sure Corn Cure Ever Known

"Gets-It" the New Way, 2 Drops Do It.

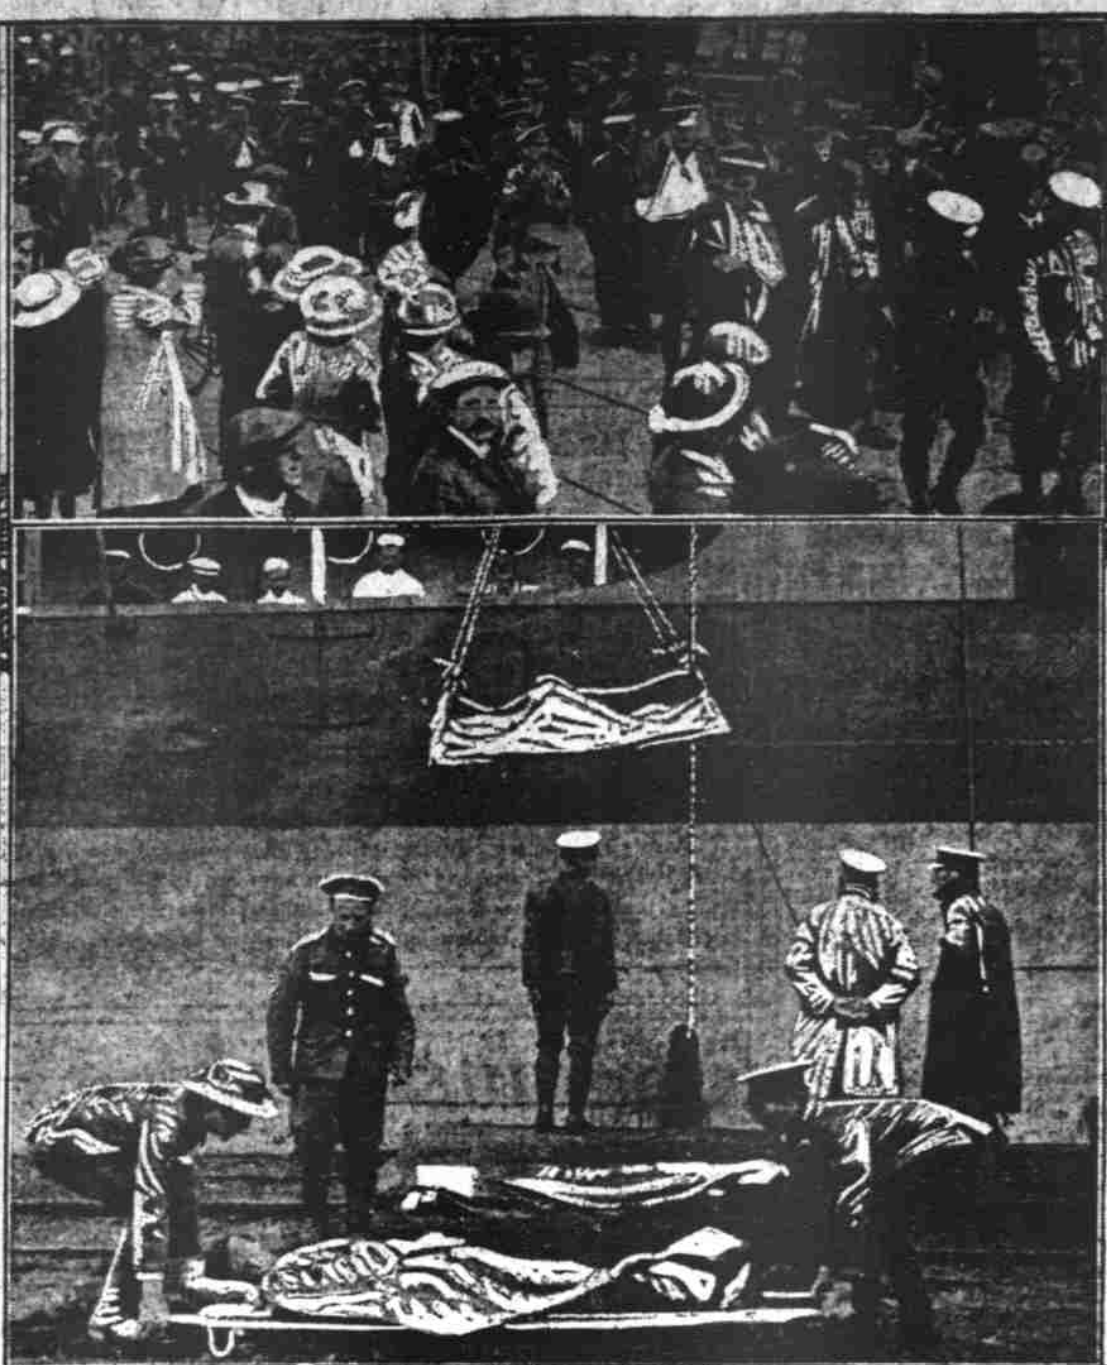

To endure the pains and tortures caused by a little thing like a corn is ridiculous, simply because it is unnecessary. The new-plan corn cure, "GETS-IT."

IT is the first one ever known to remove corns without pain and without trouble. This is why it is the biggest-selling corn cure in existence today. It is now used by millions because it does away with sticky tape, with plasters and cotton rings that shift their position and press down on the corn, with salves that "raw up" the toe, with "harnesses" that cause pressure and pain, with knives, razors and files, clawing and pulling at a corn.
"GETS-IT" is applied in two seconds. Two drops applied with the glass rod do the work. Pain goes, the corn shrivels, vanishes. Accept no substitute. Try it on any corn, wart, callous, or bunion tonight.
"GETS-IT" is sold by druggists everywhere. See a bottle or sent direct by E. Lawrence & Co., Chicago.
"GETS-IT" is sold in Washington by O'Donnell's Drug Store, People's Drug Store, F. G. A. Beck—Adv.

TAKING HOME THE BRITISH WOUNDED

BRITISH WOUNDED GOING HOME—England is beginning to see some of the dreadful results of the war. Thousands of wounded men have been returned to London and other cities for treatment or convalescence. The upper picture shows the arrival of wounded at Portsmouth, those with only slight injuries being able to walk and apparently in a jovial mood. The lower picture shows those more seriously hurt being raised to transports while still resting on their cots.

Parrott, of this city, survive.

THREE AUSTRIAN SHIPS SUNK BY FRENCH FLEET

Dispatch Which Escapes Censor Says Torpedo Boats Were Scuttled in Baltic, Off Cattaro.

CHOLERA IS RAGING AT POLA

By BRISTON D. ALAIRE.

Rome, Oct. 7.—Writing under date of September 16, a correspondent at Trieste, who sent his story by a messenger to escape the Austrian censorship, declares that three Austrian torpedo boats have been sunk by French warships off Cattaro.

"As a result of the bombardment by the allies' fleet," he adds, "the principal fort at the entrance to Cattaro Harbor has been completely dismantled, while the inhabited area inside the fortifications has been reduced to ruins owing to the bombardment from Montenegrin batteries at the top of Mount Lovtchen."

The correspondent says that the people of Pola, Austria's chief naval station, are in terror. The troops stationed there are continually strengthening the fortifications.

"Part of these," he continues, "consists of six rows of barbed wire entanglements four feet high and charged with high power electric current. Behind these, 100 yards back, are six rows of trenchments, each ten yards apart.

"I am informed that cholera is raging at Pola, where water, because of its scarcity, is being doled out to the inhabitants by the military officials, who have posted sentries at the fountains. Food is also scarce."

MODEL HOMES TAKE THE PLACE OF SHACKS
New Group Completed Under Supervision of Sanitary Improvement Company.
A new group of two-family houses of from three to four rooms and a bath for each family has been completed for the Sanitary Improvement Company. These houses rent from \$10 to \$12 a month for each family, have separate entrances and separate back yards enclosed with open work metal fences. It is important to see these houses to appreciate what constructive housing work is being done in Washington and what may be done within many of the alleys, if only they can be opened into minor streets. The alley bill which has just been passed will certainly be followed by legislation which will help to provide adequate housing for the people who are to leave the alleys and which will also be fair to the owner of alley property. Congress, at the time the alley bill was passed, fully expected that it would be followed with this necessary supplementary legislation.

BRYAN URGES ELECTION OF GERARD TO SENATE

Sends Letter to Former Law Partner of Ambassador Making Public Indorsement.

A letter addressed to John M. Bowers, former law partner of Ambassador Gerard, urging the election of the Ambassador to the United States Senate, was made public by Secretary of State Bryan yesterday afternoon. It is Mr. Bryan's first public indorsement of the candidacy of Ambassador Gerard. His letter, in part, follows:
"As it will not be possible for me to speak to any large proportion of the citizens of your State, I shall commission you to express the deep interest which I feel in the election of Ambassador Gerard to the United States Senate."
"Judge Gerard has rendered splendid service at Berlin, and there is no reason why his success as a diplomatic representative should stand in the way of his promotion in his home State."
